SISTERHOODS

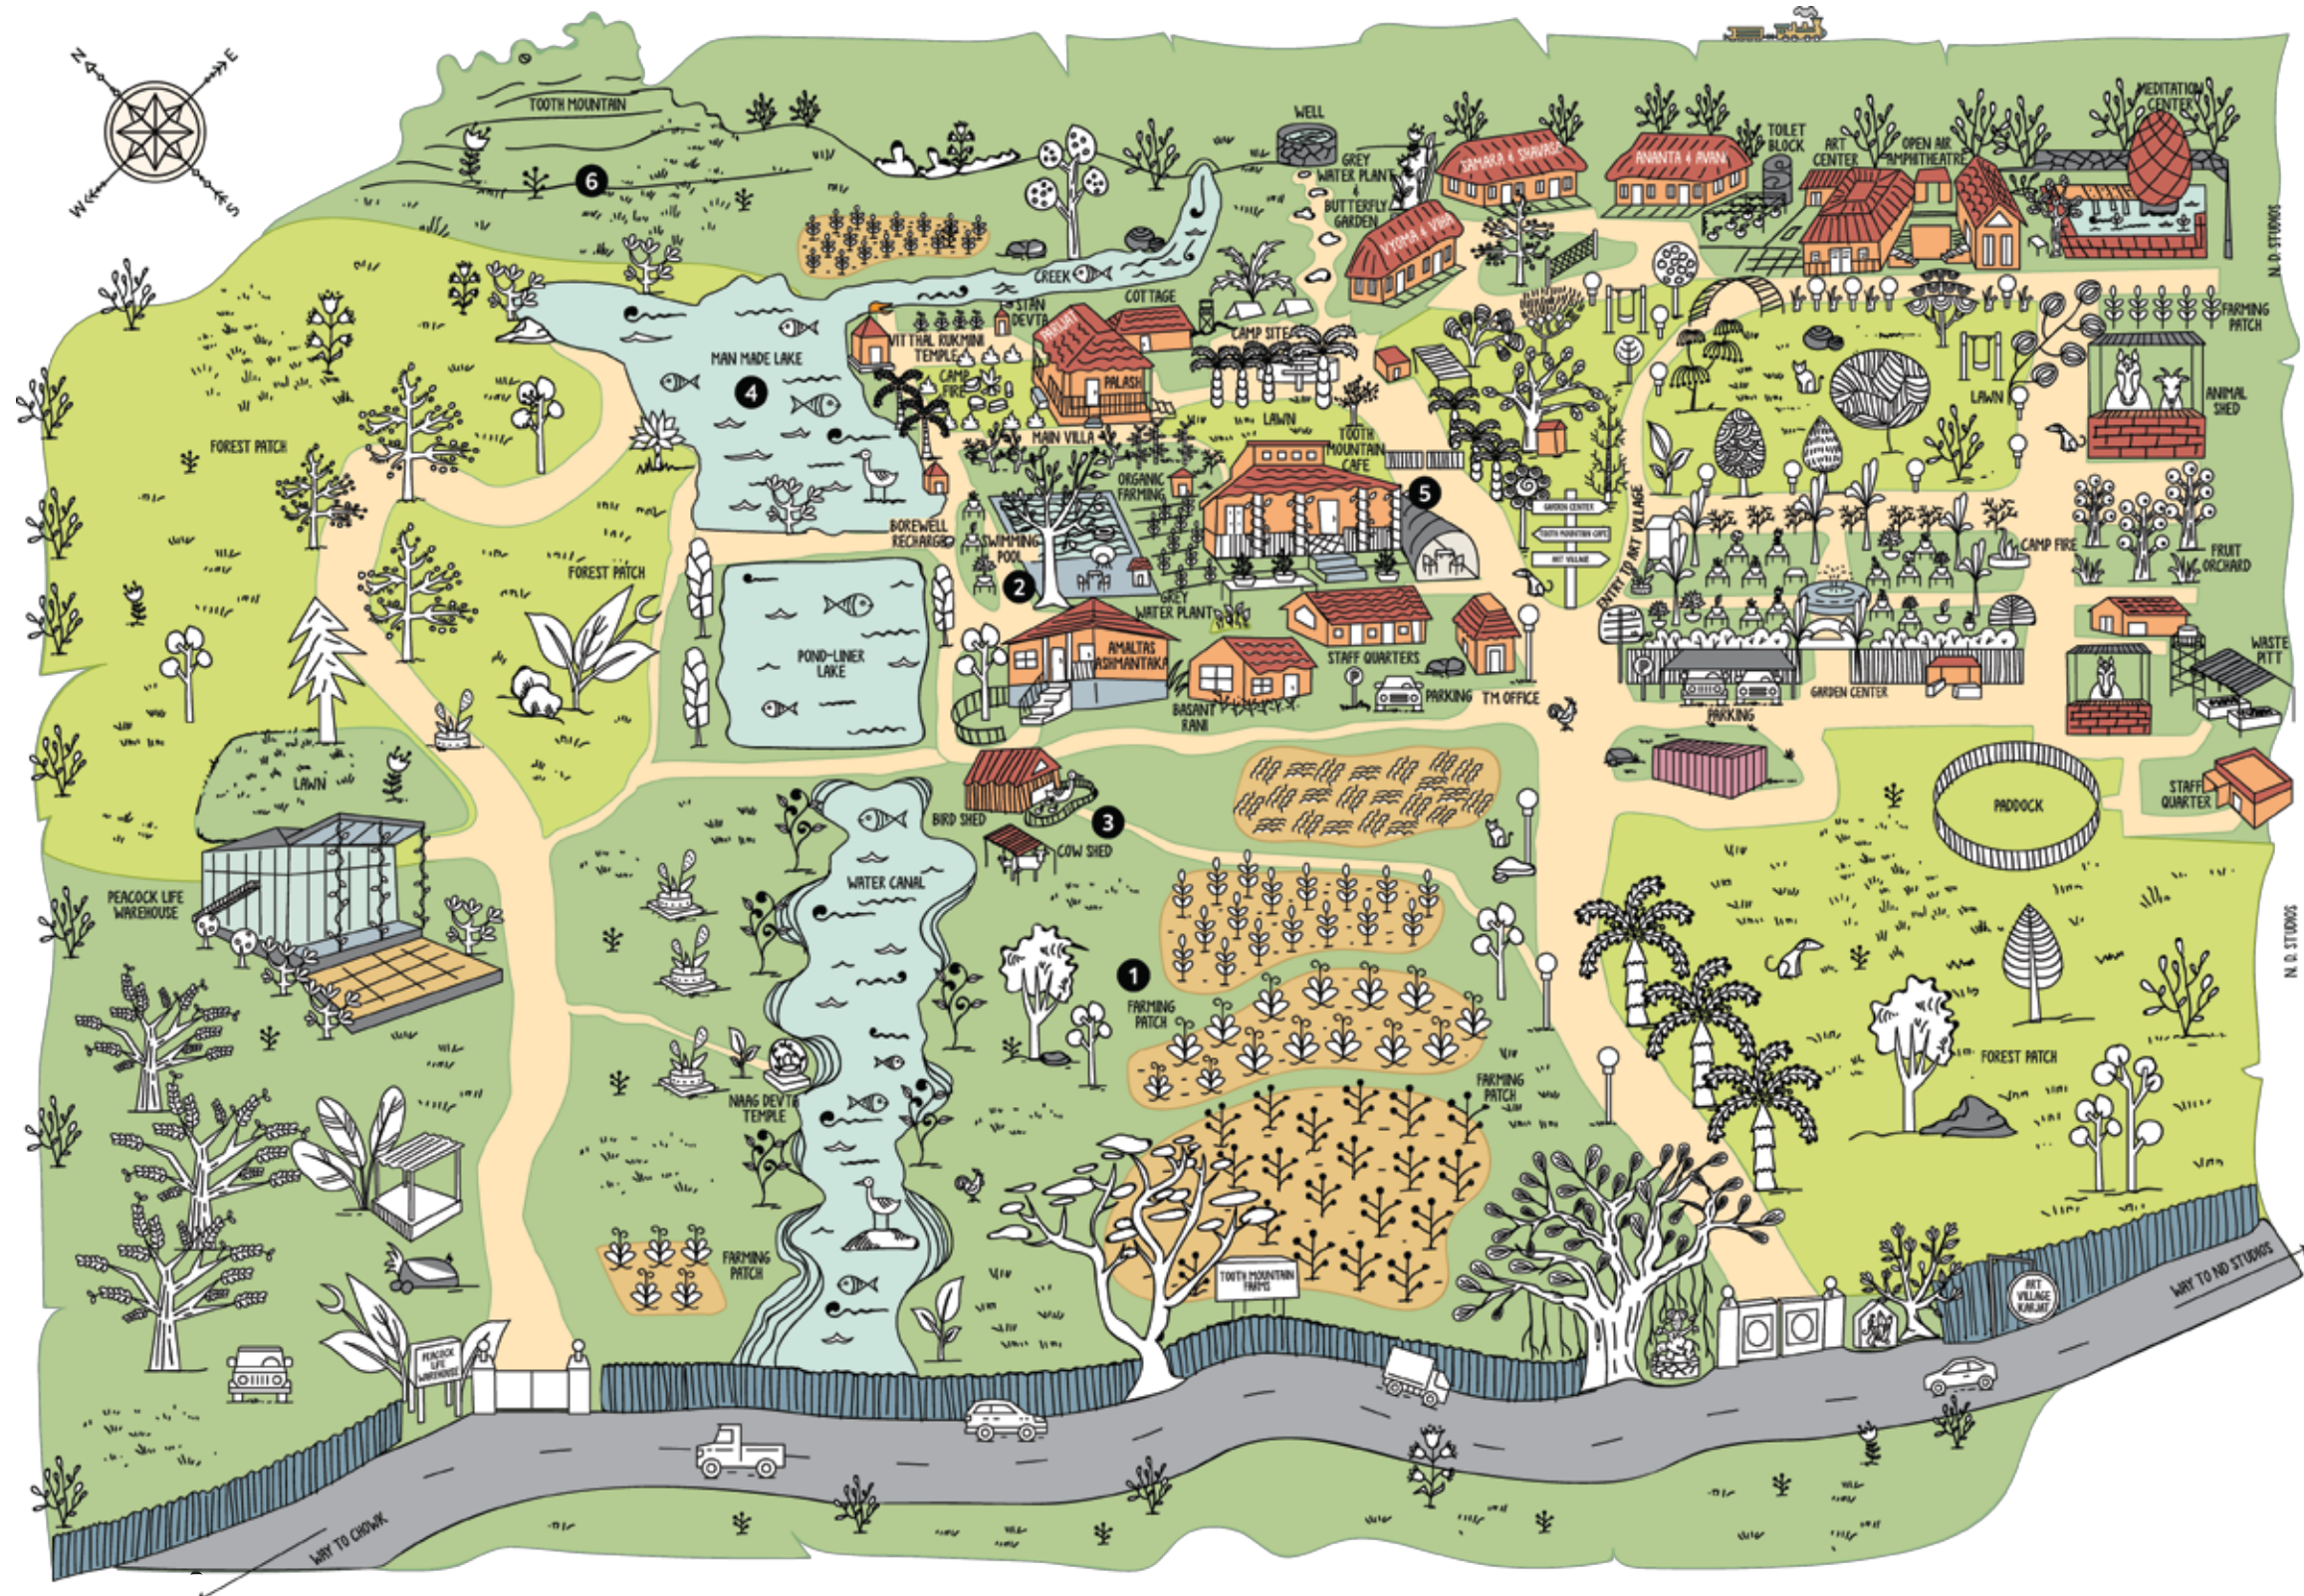

The art village is a physical manifestation of a creative space where Artists, Film makers, Photographers,

Architects, Yogi's, Dancers, Musicians, and Theatre personalities come together to invent, create and share their philosophies, methods of practice and share their journey's through workshops, festivals, talks and performances. It is spread over 20 acres of farm land and one can engage with the project through overnight stays and attending our programs which are held all year round.

A furniture and home decor store founded by award winning interior designer Shabnam Gupta.

At Peacock Life, you will find a range of products that are aesthetically pleasing and diverse while being affordable. Shabby chic, vintage, handmade, eclectic and quirky is how we would describe their product range. Their retail warehouse in Karjat is a one stop shop for all this and more!
