Archery Board | Cycling | Outdoor
Children Play area (slides etc.) | Bon Fire

PAID

A masseuse can be organized from Mumbai if you inform us a day in advance offering various therapies like sports therapy, acupressure, Swedish deep-tissue or then an ayurvedic oil massage.

Nature Trail

At Tooth Mountain Farm, we have been chemical-free from the last 10 years and thus attract a unique set of "FLORA & FAUNA" which thrive on our property.

Our in-house **Naturalist Mehull Dedhia**, who has been associated with SGNP (Borivali) conducts these unique "Trails & Treks" and has been over the years documenting all the 'Uncommon to Rare' species that visit us.

Nature Trails

We have documented over

- 55 types of Birds
- 09 types of Snakes
- 05 types of Moths
- 09 types of Spiders
- Few Insects & Reptiles

Our guests have the unique opportunity to be a part of a 2 hour "Nature Trail", in which they learn about the diverse ways and miraculous functioning of NATURE.

Our Naturalist will explain the various nesting cycles, unique characteristics of various species, how to spot them and many more interesting trivia. You will be surprised how much a trained eye can notice that we do not with an untrained eye.

Check our blog on "**Trek The Sahyadris**" for recommended hikes, treks, waterfalls, ancient caves etc. along with a large map of the area. Also you can find the same on the map of the adjoining areas. We also conduct treks to Tooth Mountain and adjoining peaks. Please see our website for prices & details.
